have a drink they're buying  
bottom of, bottle of denial  
big guy, big eye, watchin me  
have to wonder what it sees  
(sin...)  
progress laced with ramifications  
freedom's big plunge  
pull the innocent from a crowd  
raise the sticks then bring em down  
if they fail to obey  
oh if they fail to obey  
for every tool they lend us  
a loss of independence  
i pledge my grievance to the flag  
cause you don't give blood then take it back again  
oh we're all deserving something more  
progress, taste it, invest-it-all  
champagne breakfast for everyone  
break the innocent when they're proud

raise the stakes then bring em down  
if they fail to obey  
oh if they fail to obey  
pledge your grievance to the flag  
aw c'mon, don't give blood then take it back again  
oh we're all deserving something more  
(have a, have a, drink, drink...)  
(have a, have a, drink, drink...)  
i want to breathe  
follow the scene  
i want to taste  
everyone i see  
i want to run when i'm up high  
i want to run into the sea  
i only want life to be...  
i just want to be...  
i will feel alive as long as i am free...
