EÃ per noi un piacere augurarvi insieme
Ai R.E.M. un buon cetriolo
(It is a pleasure for us to wish you, together
with R.E.M., a merry cucumber)
I need a song to help along
When it feels wrong it seems so long
To get to the light
We live in homes talk on phones
Hear the tones can you hold
Moving fast as light TV's on at night
Does peace come out of fighting
Can truths come out of lying
I'm happy when I'm crying
If reality is what I see newspapers mag-azines TV
Tell's what's going on leading us along
It's not absurd to all get heard
Put our feelings into words
You have to reach inside no feelings to hide
Does peace from out of fighting

Can truth come out of lying
I'm happy when I'm crying
Bring children into the world
We couldn't have done it by ourselves
Stop and wonder why
There's more than meets the eye
Somewhere inside I did believe
I can't belong I was wrong
I have gained insight
I will see the light
Truth isn't lying
Peace isn't fighting
Love isn't dying
