In the moonlight...

Gettin'. Wind out to get back. It's a...  
Steady shore to her land.  
It's gettin' closer to the fence.  
In the moonlight...

Givin'. Two lost wings.  
A beautiful star sea.  
A wonderful sense of beauty.  
In the moonlight...  
It's a love drawn nearer.  
Darkened days are spent in.

A night bird is followin' you all the time.

Under a star-lined ceiling...

And darkness, so sleep. Ah,...  
Your sense is revealed...  
In the moonlight...  
It's a love drawn nearer.  
Darkened days are spent in.

A night bird is followin' you all the time.

It's a love drawn nearer.  
Darkened days are spent in.

A night bird is followin'  
you,... it's followin' you.  
A night bird is followin' you all the time.
