This is a public service announcement  
With guitar  
Know your rights

You got a right not to kill  
Murder is a crime unless it is done  
Unless it is done by a policeman or an aristocrat  
Oh, know your rights

You have the right to food, money provided at cost  
You don't mind a little investigation, humiliation  
And if you cross your fingers, perhaps retaliation  
Know you rights, these are your rights  
Know your, know these rights

You have the right to free speech  
As long as you're not dumb enough to actually try it  
Know your rights, these are your rights  
Know your rights, these are your rights for freedom

Maybe it's been suggested in some quarters  
That this is not enough  
So get up, get up and scream, oh  
Get up and scream, ah oh
