Doctor said I,I'd be alright  
Oh,everything that I believed,it wasn't true  
I found it out when I got close to you  
I thought you were different,like a dream  
Things they ain't never what they seem,whoa  
Thought I could trust you with my soul  
But you can't do that anymore  
The doctor said I'd be alright,but I still feel blue  
The doctor said I'd be alright,but I still love you  
Love you,hate you...  
Love you,want you,hate you...

Ah,yeah...

I'm different  
Me myself,I'm different than all the rest  
I can only speak for myself,but people can trust me
