Oh, what you say, what you say, what you gonna say  
when your life ends?  
What you gonna say? Ole!  
Ah, what you say, what you say, what can you say of  
importance?  
What you gonna say but "Ole!"?  
Ah, what you say, what you say when there's too much  
you can't breathe in?  
What you gonna say but "Ole!"?

I ain't got words for what goes on  
I ain't got words for all that's wrong  
What do you say? Meditate  
Meditate, Ole!

What you say when they give the guy the go-ahead?  
What you gonna say? Ole!  
What you say, what you say when your spitting up on  
your bed?  
What you gonna say? Ole!  
What you say, what you say when you've had enough  
of knuckleheads  
What you gonna say? Ole!  
What you say, now, what you say when you've seen  
enough bloodshed?  
What you gonna say? Stop!

I still can't help but wonder why  
I'm feeling laughed at by the sky  
What do you say, meditate?  
Meditate, Ole!

When your life ends  
When your life ends  
When your life ends
