he say to her he wants it easy
he expects her to be easy
he wants it to be easy
but she says no, she says no i don't want to
She says no, she says no, i don't want to
he expects it too, e-easy

but she says stop, you gotta stop
when he says go, you still gotta stop
when she says stop, you gotta stop
when he says go, you still gotta stop
(last two lines x3)

he wants it, he wants it
so badly he wants, he wants it
but she says no, she says no
she says: go to hell if that's all you want me for
and she says no

when she says no, you gotta stop
when he says go, you still gotta stop

when she says no, you gotta stop
when he says go, you still gotta stop

she did nothing to deserve it
he just wants, he wants to observe it
we sit back like they taught us
keep quiet like they taught us
he does nothin' to remove it
he's just as hurt cause he wants to prove it
we sit back like they taught us
keep quiet, just like they taught us
he just wants, he wants to prove it
he just hurt, she won't remove it
we sit back like they taught us
like they taught us, like they taught us.....
