Some people say it's cooler on the dark side
And so I hung out with the bad boys
I'm trying all my best just to
Hang out with zombies without being one of them

They say, 'what you drive is what you are,
What you eat is what you are'
I do what I wanna do
They say, 'what you drive is what you are
What you hate is what you are'
I say what I wanna say

I am what I am this whole time you were wrong
You thought that I was this whole thing that I'm not
How jealousy has gotten in to you
You want to be me the truth is I'm not you

They say, 'what you drive is what you are,
What you eat is what you are'
I do what I wanna do
They say, 'what you drive is what you are
What you hate is what you are'
I say what I wanna say

I know you hate me you know what I hate you too
I would do just anything to prove that I was right
