The cavalry storm the Indian grounds  
The Apache tribe hear the thunderous sounds  
Awaiting the battle and ready to go  
Apache's ready with arrows and bows

Ablaze with gunfire the battle begins  
Indians fighting a war they must win  
The open fields are a battleground  
Apache Indians surrounded all 'round

Apache Warrior fight for your tribe  
Fight for your people be willing to die  
Fight like a warrior, fight for your life  
Apache Warrior prepare to die

No chance for escape it's murder at stake  
Apache Warrior's still standing their ground  
Cavalry too strong with three thousand men  
Much too greater, the battle's at end

Apache Warrior fight for your tribe  
Fight for your people be willing to die  
Fight like a warrior, fight for your life  
Apache Warrior prepare to die

[Solo]

The Apache's outnumbered the cavalry wins  
Killing 'em all, they fought to win  
Women and children all slaughtered and dead  
Cavalry men be off with your heads

Apache Warrior fight for your tribe  
Fight for your people be willing to die  
Fight like a warrior, fight for your life  
Apache Warrior prepare to die

Geronimo.  
Prepare to die!
