She left home at fifteen, searching for the dream  
Small town girl so innocent, a stranger to the scene  
Attracted to the shimmering lights, like a moth drawn  
to a flame  
Runaway to the cities scorn, a young girls lust for fame

Blinded by the spotlight, the stars shine in your eyes  
You walk the walk and talk the talk, but I can hear you  
cries  
Just another lost soul, your livin' a lie  
The streets are a lonely path, where broken dreams will  
die

Neon angel, life was all a dream  
Neon angel, it just ain't what it seems  
Neon angel, your livin' a lie  
Neon angel, I still hear your cries

A surrogate of the wildside, a temptress of the night  
Innocence lost in a heartbeat, in the Hollywood lights  
Silverscreen starlett, seeking her golden dream  
Won't be too long now, before she is crowned Queen

Blinded by the spotlight, the stars shine in your eyes

You walk the walk and talk the talk, but I can hear you  
cries  
Just another lost soul, your livin' a lie  
The streets are a lonely path, where broken dreams will  
die

I see the solutide in your eyes, the face of despair  
Covering up your little white lies, fortune and fame ain't  
here  
Keep yourself together, till the night comes again  
Hollywood dreams shattered, shot down in flames

Blinded by the spotlight, the stars shine in your eyes  
You walk the walk and talk the talk, but I can hear you  
cries  
Just another lost soul, your livin' a lie  
The streets are a lonely path, where broken dreams will

die

Neon angel, life was all a dream  
Neon angel, it just ain't what it seems  
Neon angel, your livin' a lie  
Neon angel, I still hear your cries
