Looka here - I love it when the sun goes down  
I get loose - then I start to make my rounds  
That's right - I like the party life

Downtown everybody knows my name  
They line up just to watch me play my game  
That's right - I like the party life

All you gotta do is take a look at me  
You know I let the good times roll  
What you're gonna get from me is what you see  
I party right to your soul

I dance, and everybody steps aside  
I romance - everybody wants to ride  
That's right - I like the party life

Daylight - I -find a place to go to bed  
I sleep, but I'm still dancing in my head  
That's right - I like the party life

She's all right - She likes to party -  
I like the party life  
She's all right - She likes to party -  
I like the party life

All you gotta do is take a look at me  
You know I let the good times roll  
What you're gonna get from me is what you see  
I party right to your soul

I dance, and everybody steps aside  
I romance - everybody wants to ride  
That's right - I like the party life
