Who hasn't felt the pain  
Of a broken heart  
Who hasn't cried out  
For another start

Who hasn't said  
I'll do anything  
Please... just bring it back to me

Your love to me is like water  
I can't live without it  
Would die without it  
Would die without it

The road weary warrior climbs into her bed  
Where she holds him close to her  
And ease his aching head  
Your journey is complete for now  
Let's get something to eat, and how  
Watch TV or read a book  
Give it all a second look

Your love to me is like water  
I can't live without it  
Would die without it  
Would die without it

Who hasn't felt the pain  
Of a broken heart  
Who hasn't cried out  
For another start

Who hasn't said  
I'll do anything  
Please... just bring your love back to me

Your love to me is like water  
Would die without it  
Would die without it
