My trouble in mind came when you left here
I can't seem to find one as sincere

And I guess you should know
That I'm losing control
And I still love you so

Simone

You love sugar cane & rock n' roll
When you were in pain I'd never know

But I need you to know
That I can't let you go
And I love rock n' roll

Simone

You saved my soul

And I'd like you to know
I want to feel that you know
It's all I need you to know

Simone

You saved my soul from losing hope, You saved, you
saved my soul

Simone
