My excentrifying impulse  
Tell me.. Please  
Brothers rip the wings off  
The sky in flames

The stargates crumbles  
Into my fields of misery  
Betrayal of the gates  
(famous explorer in head)  
Drink the serum to explore  
Drink... drink at me

Skull smashing anaesthetic surgeon in mind  
So they closes my passage to freedom

Anaesthetic? Me live!  
Sky purple... colour dead  
Dead puppets

I refuse to believe  
My manifest... My madness

The stargates crumbles  
Into my fields of misery  
Drink the serum to explore  
Drink at me

My manifest... My madness
