Words are like a dagger
Your kiss is like a gun
You've got me feeling this way now and
All i can do is run

Words pierce me like a dagger
Feel it cut my skin
Wish this pain was over with
I've got to let you in

I need to get away from here
I've got to stay away
I'll mark your door with a big x and treat you like the
plague

Words pierce me like a dagger
Feel it cut my skin
Wish this pain was over with
I've got to let you in

Let's go and burn the house down
And burn you at the stake
You rip my fucking heart out
Let's have a party at your wake

Words pierce me like a dagger
Feel it cut my skin
Wish this pain was over with
I've got to let you in
I've got to let you in
I've got to let you in
