"Lost Inside Your Heart"

Visit "[Lost Inside Your Heart](#)" on MotoLyrics.com

Slowly you drift
Through endless nights
You're dreaming beneath onyx skies
Wave goodbye to everything

March to the sea
Dance on the waves
That constantly push you away
Because you could be anything

Floating in the dark
Lost inside your heart

When will you
Open you eyes
And start it all over again

Tell me you see
Ghostly blue light
Burning shadows that whisper inside
But you can't believe what you see

Echoing streets
Cities of glass
Reminders of all that won't last
But these memories are all you need

Floating in the dark
Lost inside your heart

When will you
Open you eyes
And start it all over again
When will you
Leave this behind
And never return here again
