Walking down the halls of my life  
These pictures on the wall  
Memories I wish I could forget  
From when I was small.

Missing since Monday to some place  
That starts with an "O"  
And all these cool kids with such cool dads  
And I've got nothing to show.

How could something feel so good at the time  
But ruin all your life  
When will you open your eyes (when will you see)  
I would have died to set you free.

Missing since Monday to some place  
That starts with an "O"  
And all these cool kids with such cool dads  
And I've got nothing to show.

Missing since Monday  
Where did you go

Missing since Monday  
Where did you go.
