When the night is gettin' closer, darkness comin' down
Dreams turn into nightmares, your body leaves the
ground
Cryin' for mercy but people around you are blind
You loose your mind

Welcome to my termination, I'm the voice of war
No one cares about but I open my door
Future will be your decition
When you'll just do what I order

Kill! Fire! Destroy! Do just what I say
Deff! Blind! Obey! And never, never say no!

You're suffering your pride
No one wins the fight

Don't you ever think about it, what've done to you
If you can not fight,against, you'll watch them killin' you
You've born for nothing, you can't even choose your
side
Which way is left, which way is right

Close my friend & feel me breath
Forget that fucking tools
Fucking lies & fucking sights &
Fucked up fucking rules
Tired of this circulation, years & you'll search the
reason

Kill! Fire! Destroy! Do just what I say
Deff! Blind! Obey! And never say no!

Devil in your mind,Dishumanized
You're suffering your pride
No one wins the fight!

You hear but never understand.You look but never see
Hatered blinded your eyes forever...Sun will take this
light
And stars will fall down from the sky...When the dark

ages begin,
You'll open your eyes and turn back to me
Then I'll give you the peace
