You had your fun with me  
And I don't forgive you even now  
And I'm filled with jealousy  
But I'd find you just to figure it out  
You walked into my life and then destroyed my world  
Now who's gonna disagree  
I am in misery, I am in misery

Throw me around  
It's all over  
You already walked away from me  
Throw me around  
It's all over  
I'm not gonna walk away

I've got my thoughts around you baby  
You've got your arms around him now  
And all these thoughts they drive me crazy  
And I don't wanna tell you what I'm gonna do

You sank your teeth in me  
And spun a web with every lie  
Cheated so casually  
Called me up just so we could fight  
In the end I'll forget what our love could have meant  
By finding ways to stay together  
But it's a fantasy  
Cause it can never be, cause it can never be

Throw me around  
It's all over  
You already walked away from me  
Throw me around  
It's all over  
I'm not gonna walk away

I've got my thoughts around you baby  
You've got your arms around him now  
And all these thoughts they drive me crazy  
And I don't wanna tell you what I'm gonna do

Easy now all alone

Letting you go, letting you go  
Easy now all alone  
Letting you go, letting you go

Lock the door, pull the shades by the window  
If you're happy I don't even want to know  
There's a gun in my hand and I doubt there's  
Any other way, any other way

Lock the door, pull the shades by the window  
If you're happy I don't even want to know  
And I don't wanna tell you what I'm gonna do
