

Pensive **"Stare At The Stars"**

Visit "[Stare At The Stars](#)" on MotoLyrics.com

This song is ACTUALLY called "Third of July"

how did this start, was it something i said
was it something i did, i'm sorry
the worst thing in the world
is seeing you cry, seeing you cry.

i know we can't change the past
we can change the future
soon we'll be free
to do what we want in my car,
and stare at the stars

My resolution
Is to never disappoint you again
Started out in tears
Let's make this year end, end with a smile.

I know we can't change the past
We can change the future
Soon we'll be free
To do what we want in my car
And stare at the stars.

Twilight sky
Stars will shine, shine
You're my light.

I know we can't change the past
We can change the future
Soon we'll be free
To do what we want in my car
And stare at the stars.

I know we can't change the past
We can change the future
Soon we'll be free
To do what we want in my car, my car
And stare at the stars.
