It doesn't matter how it came to this  
Or where you place the blame  
One day we're gonna fall apart  
And what if we are all insane now  
What if we're all insane now

Take away everything you thought was sacred  
I'll be safe alone

Things will never change  
Why can't you let it go  
Why can't you let it go  
I will never be the same

Everybody better learn how to swim  
This ship is going down  
Can you say you even tried  
And what if we are all insane now  
What if we're all insane now

Take away everything you thought was sacred  
I'll be safe alone

Things will never change  
Why can't you let it go  
Why can't you let it go  
I will never be the same

Why can't you let it go  
Why can't you let it go  
Why can't you let it go  
I can't stand this

Things will never change  
Why can't you let it go  
Why can't you let it go  
I will never be the same
