A full moon staring down at me
As I wonder how things could've been
I imagine you might be doing the same
The moon staring down on you too
Do you miss me as much as I miss you

And if all good things must come to an end
I knew we couldn't stay together forever

I wish that saying wasn't true
Just with that I could see you
I wish it wasn't true
Wish I could see you

On that day you left our town
Did my best to keep my spirits high
Remembering all the good times we had
Going to shows or watching T.V.
I was happy as long as you were here with me

And if all good things must come to an end
I knew we couldn't stay together forever

I wish that saying wasn't true
Just with that I could see you
I wish it wasn't true

Wish I could see you

Whoa...
Darkness surrounds me save for the light from you
You're the star in my lonely night sky
Darkness surrounds me (darkness surrounds me)
You're my star

Three thousand miles away
Will I ever see you again
We should run away together
And never be apart

Your absence cruches me
My heart is broke and only you can mend it

Why do good-byes have to be so hard
It took so long to even say hello
I just don't understand why you even had to go

And if all good things must come to an end
I knew we couldn't stay together forever

I wish that saying wasn't true
Just with that I could see you
I wish it wasn't true
Wish I could see you (I want to see you)
