I'm going back baby way behind the sun  
I'm going back baby way behind the sun  
I'm gonna find me some honey and I just might bring  
you some  
Now I'm going back baby don't you want to go  
Now I'm going back baby don't you want to go  
Goodbye to trouble never come back no more

Your gonna go out and find one of those fancy men  
You better go out and find one of those fancy men  
He'll roll you over in the clover and never come back  
again

I'm going back baby way behind the sun  
I'm going back baby way behind the sun  
I'm gonna find me some honey and I just might bring  
you some
