Ravens fly over  
Clouds coming thunder  
And I want to be alive  
Flesh becomes metal  
Veins merging wires  
Mechanize these eyes  
Brain burning shutdown  
Stronger than millions  
And I want to be alive  
Memory overload  
Electrical showers  
Mechanize these eyes

Run all the way more than  
I wanted to know  
I fear all that's inside  
Fear all that's inside

Run all the way more than  
I wanted to know  
I fear all that's inside  
Fear all that's inside

All the fear inside  
Can't understand  
A metamorphic mindtrap  
Bloodbath  
Rejuvenate  
Manipulate  
No control on the energy  
Changing in front of  
Mind and body  
Machines that thrive  
On the essence of science  
Souls are alien  
Everything mind and machine  
Everything mind and machine

Ghost trigger blind wave  
Meltdown dismay  
My computerized mind  
Terror, dismemberment

Anxiety, I'm restricted  
I want to be alive  
Rebirth my only answer  
I give into the cancer  
Mechanize these eyes  
Laser burning through  
And I'm mangled in truth  
Now I know  
Now I know I'm alive

Run all the way more than  
I wanted to know  
I fear all that's inside  
Fear all that's inside

Run all the way more than  
I wanted to know  
I fear all that's inside  
Fear all that's inside

Mechanize these eyes  
Mechanize my mind  
Now I know I'm alive  
Now I know I'm alive

Mechanize these eyes  
Mechanize my mind  
Now I know I'm alive  
Now I know I'm alive

All the fear inside  
Can't understand  
A metamorphic mindtrap  
Bloodbath  
Rejuvenate  
Manipulate  
No control on the energy  
Changing in front of  
Mind and body  
Machines that thrive
