(Pep Love)  
Here we here we go  
This place  
Let's go  
Yeah the passing on  
Experience amassing  
The last thing known  
Of the everlasting tongue  
My raps are forecasting  
The rapture that shall capture  
Vast things of fascination  
Exasperation of an entire nation  
Causes inflammation  
We master masons  
Paper chasin, brick layin  
And playin the game  
That we was placed in  
From the beginning  
To the end ya know  
Living is learning  
So how could you pretend to know  
What you don't  
Cause you won't  
Benefit from it  
I'm infinite  
And that's only an increment  
Of my elevation  
To a higher plane  
I contain information  
And spread it the same  
A polyosis(??) occurs  
When I drop these  
Doses of words  
Over musical notes  
With an impulsive urge  
On the verge of a breakthrough  
Symbols of sound vibrate the ground  
Like earthquakes do  
Energy surges  
Death to my enemies  
Service of justice

Poetical purges of tyrants  
I rinse the world of the virus  
Like this  
Living my life with vibrance  
And radiance  
On the way to the next apex  
Is platinum plaques  
And packed stadiums  
Ascension  
Chorus (2x):  
I'm on another plane  
Runnin a game  
We all one and the same  
Come with me  
I'll show you what you won't believe  
And you can be what you want to be

Ascension  
Bigger things, other places  
Dimensions, ascension  
Where do we go from here?  
Ahh yeah  
I'll take you there  
With this one, listen  
Attention, attention  
This is ascension  
And it would be  
Even if I didn't mention it  
War, peace, love and hate  
The very nature of it
