Be anyone you wanna be
Be anyone you wanna be
But baby, if you come as you are
That's alright with me
Everybody wants to be someone else
Everybody wants to change their name and face
Everybody wants to be on TV
Everybody knows that $1+1=3$
Be anyone you wanna be
Be anyone you wanna be
But baby, if you come as you are
That's alright with me
Everybody wants to be a man of the world
Everybody wants to watch the poor little rich girl
Everybody wants to sow the perfect seed
Everybody wants to be what everybody needs
Be anyone you wanna be
Be anyone you wanna be
But baby, if you come as you are
That's alright with me
Everybody wants to change their shirts and ties
Everybody wants the truth behind all lies
I can stay all night
Just to watch your eyes
Everybody wants invisibility
My mother still wants Ringo to come on over for tea
Be anyone you wanna be
Be anyone you wanna be
But baby, if you come as you are
That's alright with me
Everybody wants to change their shirts and ties
Everybody wants the truth behind all lies
