It could happen to anyone  
Anyone, to anyone  
Wakin' up around the corner of a dream  
Gaze with one eye  
Yearn to fly  
An endless high, a butterfly  
Realize it's hardly how it seems

Chorus:

Hey Mr DJ, won't you play another love song  
No more talking if you please  
Hey Mr DJ, won't you play another love song  
For my baby and me

She had her love-for-sale-shoes on  
Carried on all summer long  
I guess she was the best company for me  
And river music filled the street  
Like velvet heat, a kiss complete  
I believed in every word she laid on me

Chorus
