Ever since I saw you  
Entering my world  
Life has really changed  
To diamonds and pearls

I'm tryin' to take it slow  
Just goin' with the flow

I want you to know  
I want you to stay, don't go

Every day's the same  
Like cracs on the wall (cracs on the wall)  
But every time I meet you  
All walls start to fall

But I'm tryin' to take things slow  
Just goin' with the flow

I want you to know  
I want you to stay, don't go  
I want you to know  
I'm comin' your way, don't go

I want you to know  
I want you to stay, don't go  
I want you to know  
I'm comin' your way, don't go

I want you to know  
Yes, I want you to stay, don't go  
I want you to know  
I want you today, don't go

Stay, stay, stay (x2)
