"Daisy Chain"

Must you seize my world by storm
Have me dangle on a wind
Weave a heady cloud on a
Silent string of pearls
Must you seize my world by storm
Must you wring my heartsong dry
On a tender recklessness
To crown your moment
Do you need somebody
Do you need a someone
Who will make your sunset last forever
Who will daisy chain you in the summer
Must you seize my world by storm
With a flawless cleave of hand
Run your fingers through
The water of my hair
Must you seize my world by storm
Stake your claim upon the heavens
Cast a mercy smile for this
Daisy on a chain
