twelve broken skateboards
ten pairs of shoes
and one broken bone
what more can i lose
such a tight schedule
when will i sleep
cause i've got no brakes and the mountain is steep
i'm in too deep

what does any of this mean
what does it matter
cause i cant figure out why
i'm stuck up my own ladder
stuck so way up hi

i just went broke and the bills cam today
my assingnment is late and i still want the A
everyones got time but no one will share
when it's all over will anyone care
it isn't fair

god gives us bigger things to worry about
some day soon we'll all figure it out
