with 2 extra clips for them haters that want to trip
and since I am from the south boy you know I'm all grill

the northside, eastside, westside following
but when I from the southside anything goes

making tunes for them rebels steady flipping yayo
see this shit is for you ballers, huslters, and dealings
since we lock the streets the whole gump riding with us

[Hook]

Westside riding wit me (IGHT)
