"Psychopath"

He's a psychopath, he's a maniac
And he's after you
Look behind your back, he might follow you
He's a psycho killer, he's a driller killer
So run for your life
It's time to lock your door, he wants to kill you now
So try to find a knife

You should try to fight him back
Because he's evil and a maniac

He uses chainsaws, he uses drills
He thinks that tools are fun
He's dangerous, he's insane
So fight him back or run
If you don't kill him,
He'll always follow you
Until your death
He wants to cut your throat
He wants to rip your head off
He wants to hear your last breath
