Comet in the sky
Sear me like a passion
That took such a long time
Can I go away with you

Come and save my life
Trail your farewell kisses
Over the port side
Left at night so no one knew

Blinded by the stars
Can you help me get to where you are
Blinded by the stars
So familiar that it feels too strange
Give a name to this terrifying change

Comet in the sky
Lost you and the starlight
Lost in the new sunrise and
On my love I wait for you

Blinded by the stars
Can you help me get to where you are
Blinded by the stars
So familiar that it feels too strange
Give a name to this terrifying change

I would tell the world that I love you
But this waiting game is as serious as statue

Blinded by the stars
Can you help me get to where you are
Blinded by the stars
So familiar that it feels too strange
Waiting for it to come back again
So familiar that it feels too strange
Give a name to this terrifying change

Terrifying change
Terrifying change
Terrifying change
