[Verse:]

Oh- the time has come
And I see you stars all starting to come
I'm sitting here alone with nothing to know
I'm also in a twilight zone

[Verse:]

And I hear no sound.
All I'm doing is looking around
I see what I am looking for.

[Chorus:]

Can you be my shooting star?
I know you traveled so far.
Will you be my shooting?
And a smile will appear on my face.

Can be my shooting star
All I see is beauty so far
Come and let me be your shooting star.
Because your light will help me.

Can you be my shooting star?
I know you traveled so far.
Will you be my shooting?
