Every day
Do you feel
Like you don't belong

If you could
Go somewhere
Where would you go

Rolling away, Rolling away
Who will I meet
And what will I do

Rolling away just rolling away
Where to go and
When will I leave

Why did you go
Leave me here
All alone with no where to go

Standing here
Just waiting
With nothing In my mind

[Chorus:]
Rolling away, rolling away
Who will I meet?
And what will I do

Rolling away just rolling away
Where to go and
When will I leave?
