She made her way down the coast...
Like a villain
And all the bridges she broke never wound up healing
It was a murder she wrote
Believe it, and under pressure I choked... she's leaving

Baby you drive me crazy
But I guess well that's well, that's just what you do
Baby seems like you hate me
Come on tell me tell me tell me it's not true

And now I'm burning the plans
And watching my steps
Making sure I avoid that girl in the velvet dress
Oh I'm loving the way, she breaks me
Out of the thoughts in her head she erased me

Baby you drive me crazy
But I guess well that's well, that's just what you do
Baby seems like you hate me
Come on tell me tell me tell me it's not true

Close your eyes to shut me out
Light a match to burn me down

Baby you drive me crazy
But I guess well that's well, that's just what you do
Baby seems like you hate me
Come on tell me tell me tell me it's not true
