

## Afters

### "Forty-Two"

Visit "[Forty-Two](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I came into this world to find a reason to live  
I came with nothing to give  
Nothing I could offer, nothing I could ever do

Before You set the stars up in the sky  
You came and took me aside  
You told me I was part of the plan  
You told me I was Yours

Will You tell me what this life is all about?  
Will You show me how to make my time here count?  
Will You lead the way onto the other side  
'Cause I want to feel alive, 'cause I want to feel alive?

If I could only see right to the end  
I'd know just where to begin  
I could put together all the little pieces  
You carry the world, You hold it in your hands

It's all a part of your plan  
Show me how to love  
Won't You help me find my way to You?

Will You tell me what this life is all about?  
Will You show me how to make my time here count?  
Will You lead the way onto the other side  
'Cause I want to feel alive, 'cause I want to feel alive?

There's a place for us  
The perfect place for us  
There's a place for us  
The perfect place

Will You tell me what this life is all about?  
Will You show me how to make my time here count?  
Will You lead the way onto the other side  
'Cause I want to feel alive, 'cause I want to feel alive?  
Yeah, yeah
