Can we work this out
I don't wanna close the door
Before the sun goes down
We can't let this go too far
I'll do anything to meet you anywhere you are

'Cause it doesn't matter anymore
Who was right or wrong
If we could only find the words we've lost
Before what we have is gone

Say it now
Find a way to say it now
Don't be afraid to say it now
Everything we're keeping inside

Don't wait, just let your heart speak
Don't waste another heartbeat
'Cause we'll never know till we
Let it out, let it out

Say it, say it now
(Say it, say it now)
Say it, say it now
(Say it, say it now)

My heart is wearing thin
I don't wanna fight a war
That no one's gonna win

All this time we've grown apart
Looking for an end
If I'm the one who's holding on
And holding back, here's how we begin

We gotta say it now
Find a way to say it now
Don't be afraid to say it now
Everything we're keeping inside

Don't wait, just let your heart speak
Don't waste another heartbeat

'Cause we'll never know till we
Let it out, let it out

Say it, say it now
(Say it, say it now)
Say it, say it now
(Say it, say it now)

I hope we leave it all behind
No more getting lost between the lines

Can we work this out
I don't wanna close the door
Before the sun goes down

Say it now
Find a way to say it now
Don't be afraid to say it now
Everything we're keeping inside

Don't wait, just let your heart speak
Don't waste another heartbeat
'Cause we'll never know till we
Let it out, let it out

Say it, say it now
(Say it, say it now)
Say it, say it now
(Say it, say it now)

'Cause we'll never know till we let it out, let it out
(Say it, say it now)
Say it, say it now
(Say it, say it now)
