"Modest"

Visit "[Modest](#)" on MotoLyrics.com

Modest to the top-modest at the top-
Modest past the top-still modest past the top-

Straight to the top & then keep headin' up-
Stars shine for why? we should give a fuck!
About what is real & how real is still-
The only way to feel the pain it sometimes deals!
In a way that survives the struggles we face!
In this life there's a lot time can't erase!

! showcase! the skills you were given at birth!
Live your life here for what it's worth!
! show off! the style you perfect in life!
Show all the way to make it right!
Make it! to the top of mt. profession!
Rule it! until you feel there's nothing more for you to
do!
Or say! "none of you better get in my way!
Coming down! if ya do you'll be back on level ground!"

Climb to the top & then keep lookin' strong-
The sun shines for why? we should carry on!
To impress every human that we can-
And try to make all of them a fan!
If you're tired or thirsty at the top-
Sleep & drink fast to receive the pop!
In a way that stands out for the crowd-
In this game there's a lot they won't allow!

! showcase! the skills you were given at birth!
Live your life here for what it's worth!
! show off! the style you perfect in life!
Show all the way to make it right!
Make it! to the top of mt. profession!
Rule it! until you feel there's nothing more for you to
do!
Or say! "none of you need to get in my way!
Coming down! if ya do you'll be back on level ground!"

Live for the pop & then keep makin' them-
Pop loud for your vibe when ya break them!

From boo's & chant's of disrespect-
I am a son with an online neck!
All stars shine for who we are-
Shine back with a style made of bizarre!
Features that keep your head up high-
I am a star that shines for why?
We should give a f**k about life and the way we live-
Both day & night -we are the world's humorous cells-
Let's keep it laughing to save ourselves!
In a way that can read our planet's face-
In this life there's a lot time can't erase!

! showcase! the skills you were given at birth!
Live your life here for what it's worth!
! show off! the style you perfect in life!
Show all the way to make it right!
Make it! to the top of mt. profession!
Rule it! until you feel there's nothing more for you to
do!
Or say! "none of you better get in my way!
Coming down! if ya do you'll be back on level ground!"
