Ooh, baby, every time we kiss, hot lava
And every time that we make love, that's lava, hot lava
It's lava so hot it makes me sweat
Lava so warm, red and wet

Mountain is rumbling, must find a safer place
Soon the wrath of Pele, will fall upon your face (Hit, hit
it)
Great nectar of the gods, spews far from Pinatubo
Mixed with a women's sweat makes the lava we know
Baby, every time we kiss, hot lava
And every time that we make love, that's lava, hot lava
It's lava so hot it makes me sweat
Lava so warm and red and wet

Burning through the forest, red, red hot lava flows
Roles down the island's body and into the ocean below
When it meets the cool, cool water, these are big flow
of the living
Rich magma flowing into a sobiquious environment,
produces pillow lave
High geostatic pressure of sea water tends to inhabit
the vesicle size of the basalt

Baby, every time we kiss, hot lava
And every time that we make love, that's lava, hot lava
It's lava so hot it makes me sweat
Lava so warm, red and wet

And after the eruption, we lay dormant for a while

Let's just hold each other and talk
For now, Pele sleeps
Ooh, baby, every time that we kiss, hot lava
And every time that we make love, that's lava, hot lava
It's lava so hot it makes me sweat
Lava so hot, I get red and wet
Baby, baby, every time that we kiss, hot lava
Every time that we make love that's lava, hot lava
Lava so hot, red and wet
Lava so hot it makes me sweat
