My flow's most beneficent, most merciful, outrageous  
For wages, vibrate niggaz heads like pagers  
Too hard to handle son, we animals, biohazardous  
Ghetto evangelist, lyric distortions, abortions

Of fortune shit, shittin' on your ASR-10 sequence  
Fuckin' up the disc  
These be the words blow niggaz acoustic nerves  
When I swerve I'm bustin' adjectives and verbs at  
curves

Hear the thunder then I melt the frozen Tundra, sank  
Titanics  
Crack solid granite, initiate global panic  
Harlem got me branded, rhythms jingle like bricks  
These niggaz face it or face off, give up or break north

My lines petrify your mind's third eye, when I'm high  
I pull the trey in your insides, I strike blindside  
Rip inside, my syllables simmer for every criminal  
In prison whose an individual lose that struggle

My stories burst niggaz bubbles, make new niggaz  
mumble  
Ready to shed blood up in the jungles  
Ayyo, we livin' it, magnificent  
Cypress, worldwide

We gladly present to you, step back  
We gladly present to you, step back  
'Cause I take up the house

I take the microphone cord, use it as a rope  
To hang all the weak rappers for leavin' the bullshit  
they wrote  
Counterfeit fools all in the pot, let 'em boil  
When we go platinum they go, aluminum foil

The worldwide clicks and the parties with no parties  
'Cause niggaz'll get you quickly like the skin off a blunt  
When they get burned and smoked, put out and used  
up

Niggaz don't know how to act when they lit the fuse up

Abuse them up, usin' the nut, I'm usin' buck  
Fearin' of the shit, that's covered the script, deliver  
cuts  
Cypress Hill, soul assassins, all up in the club  
Showin' love to everyone of you real niggaz

'Cause the hip-hop's pumpin' through the blood in my  
veins  
Like a junkie, fuckin' with 'ron and cocaine  
Slay you both down, better hold down or get clowned  
By the world renowned, Cypress compound

We gladly present to you  
We gladly present to you

Heavy artillery rap niggaz attack from both sides  
Of the map, leave you flat on your back, my thoughts  
dwell  
In the dark black abyss, chase infinite kicks  
Rhymes over rhythm and spit hot flame from his lips

I represent, the cream of the earth, bless his birth  
My order in the elements in the universe  
My mental enter your physical frame, penetrate  
Like pushin' your face straight through a window pane

With twenty bars, I'm Sinister God, administer pain  
To your paragraph it ain't hard, see I studied the life-  
science  
For years in this, doin songs with my indigineous  
Peers and shit, hit you with the omnipotent gland

The beneficent stare, write a rhyme to shine light  
In your ear, don't make a move that'll end your career  
Stand clear, I stand firm on solid ground  
Pump blood sweat and tears, verbal architect, engineer

Shiftin' your ear, to Cypress Hill, you wack niggaz  
Caps is peeled, the scientific soul assassin'  
We dominate tracks and thrash in the front lines  
Soldier ready for action, rapid fire rappin'

We gladly present to you  
We gladly present to you  
We gladly present to you  
We gladly present to you
