False believer everything is sacred, so cynical  
Your castle's ground is shaking,  
But you burry your head in the sand  
You think you've earned the privilege of blessing,  
symbolic  
Forcefeeding the lies  
Mastering the arts

Our innocence  
Nothing that lasts  
Forever

Over and over again, you drain my soul  
One human's loss, another's gain  
One for all and all for you alone  
My mind is fractured  
Denied are our lives

Our innocence  
Nothing that lasts  
No longer Me, Myself and I

I demand your obedience, so kneel  
In this my world there is nothing but fear  
I reveal the things you cannot see  
Fire inferno  
I'll raise Hell to be

Trust I sought, but you defied me, into darkness I dive  
The noble soul is resting  
Safe within it's hive  
The image of you fades to black  
How could we ever drift so far apart  
In ruin lies my heart

Deprive me all you think is real  
Come on, just laugh at my demise  
As years were wasted on my youth  
You slashed and burned my inner truth  
I'll lead my bullets to their burial ground  
Right between your eyes

I demand your obedience, so kneel  
In this my world there is nothing but fear  
I reveal the things you cannot see  
Fire inferno  
I'll raise Hell to be
