We all have a dream  
of a place we belong  
The fire is burning  
and the radio's on  
Somebody smiles  
and it means 'I love you'  
but sometimes we don't notice  
when the dream has come true  
You've got a home here  
Call it what you want  
You've got a home here  
to return to when you can't  
face the world and you need  
some support to succeed  
You've got a home  
We all make a mess  
of our lives from time to time  
It's part of the process  
that you stumble as you climb  
And if you ever feel  
the pain is far too big a deal  
I say with pride  
I'll be on your side  
You've got a home here  
Call it what you want  
You've got a home here  
You're gonna want it when you can't  
face the world and you need  
some support to succeed  
You've got a home
