I've watched you from a distance
I've passed you on the street
I'm obsessed with you
I don't know what to do

To make you pay attention
And fall in love with me
I'm obsessed with you
I don't know what to do

Guess there's no place to hide
When you're screaming inside
There's no place to hide
When you're screaming inside

I've called you from the corner
You don't pick up the phone
I'm depressed by you
I don't know what to do

To make you understand me
To hear you speak my name
I'm impressed with you
I could impress you too

Guess there's no place to hide
When you're screaming inside
There's no place to hide
When you're screaming inside

I've explained it in my letters
I'm miserable as sin
I'm obsessed with you
What am I gonna do?

Guess there's no place to hide
When you're screaming inside
There's no place to hide
When you're screaming inside

There's no place to hide
When you're screaming inside

There's no place to hide
When you're screaming inside
