Try it, try it, try my love
Why won't you try it, try it, try my love?

I think of you each day, I think of you at night
Do you think about me, darling
When you make love to your wife?
The world won't understand, my affair with a married
man

(Try it, try it, try my love)
Try my love
I'm in love with a married man
(Why won't you try it, try it, try my love?)
Try my love
I'm in love with a married man

Do you think of us on weekends when you're with your
family
Are you lonely when you're with her
And do you ever long for me?
As I get down on my knees as I cry myself to sleep

(Try it, try it, try my love)
Try my love
I'm in love with a married man
(Why won't you try it, try it, try my love?)
Try my love
I'm in love with a married man

(Try it, try it, try my love)
Try my love
I'm in love with a married man
(Why won't you try it, try it, try my love?)
I'm in love with a married man

It true, the risk it has me
I've done for you what I can
I'm in love with a married man

(Try it, try it, try my love)
(Why won't you try it, try it, try my love?)
I'm in love with a married man

(Try it, try it, try my love)
Try my love
I'm in love with a married man
(Why won't you try it, try it, try my love?)
Try my love
I'm in love with a married man

(Try it, try it, try my love)
Try my love
I'm in love with a married man
(Why won't you try it, try it, try my love?)
Try my love
I'm in love with a married man

The world won't understand, my affair with a married
man

(Try it, try it, try my love)
Try my love
I'm in love with a married man
(Why won't you try it, try it, try my love?)
Try my love
I'm in love with a married man

(Try it, try it, try my love)
Try my love
I'm in love with a married man
(Why won't you try it, try it, try my love?)
I'm in love with a married man
