Come On Feet

(Verse 1)

Basically lady, when you called me today. I thought oh,
no.
Faced at the stairs I just felt so unprepared to say oh,
ok.

(Chorus)

You don't touch the phone
You stay at home.
Your smile is fake,
And I like your face.

(Verse 2)

Come On Feet
Don't mess with me
And can you see how your head swells when you talk
up yourself?
I think oh no.
I've messed up your bed, I've messed up your head
I think oh so what?

(Chorus)

(Outro)

Come on come on
It's not that hard to get it on. x2
There's some "woos!" in there but you can decide if
that's beyond you or not.
It's not easy this tab posting, and this song is easy.
