"Coal Miner"

Visit "[Coal Miner](#)" on MotoLyrics.com

Blood from your savior
A word from your maker
Someone trying to pull you out
Kiss from you lover
You're going undercover
Someone tell me what this is about
I'll wear my crown
Stand on my ground
Don't make a sound
Someone might hear you
I'm freezing in a coal miner's dream
All my love just ride in one stream
I found out about the cloud
You've been holding over my head
I found out about the blade
You saved to cut me down
I'll wear my crown
Stand on my ground
Don't make a sound
Someone might hear you
I'm freezing in a coal miner's dream
All my love just ride in one stream
