"Motion"

Visit "[Motion](#)" on MotoLyrics.com

Day leaves, night arrives
How come the shadow is a crutch for the light?
So i come across a lost town in the dark
One man he stands alone in a park
How long?
Motion lives in my soul
For a moment there
I thought i was in control
Motion lives in my soul
Gonna get me out of this hole
Play, play
Are you saving me?
I need you
'cause these roofs are made of ice
How long?
Motion lives in my soul
For a moment there
I thought i was in control
Motion lives in my soul
Gonna get me out of this hole
