"Ride a tear"

Drop into the mystery of a web
Speak repeat, im not listening
Sit up undress, we'll do the rest
Tongues as long as hallway carpets

I ride a tear
Through this world and disappear
I ride a tear
Through this world and disappear

Take all your bones and make a new throne
Ice in your eyes, its getting too cold (too cold)
See the faint figures in the window
She's got her word to say

I ride a tear
Through this world and disappear
I ride a tear
Through this world and disappear
