And so tonight I'll take this down.  
It's with a grain of salt your love is found.  
And The moon, the stars, the sky,  
They all know why and just what goes down

When you say he's down and out  
I can't believe you cause I don't know how

When our worlds collide  
And I have found  
That the day will soon be mine  
I'll take his crown  
And the stars in the sky that hold the wishes of my eye  
Will carry us away, away, away  
When our worlds collide

Just last night I had a dream  
Where I saw the stars for every wish they had been  
claimed  
And I awoke with a jolt when I was swept into the air  
Oh waking up without you is never fair

But will my feet ever leave the ground?  
You say you love me but you don't know how

When our worlds collide  
And I have found  
That the day will soon be mine  
I'll take his crown  
And the stars in the sky that hold the wishes of my eye  
Will carry us away, away, away  
When our worlds collide

When our worlds collide  
And I have found  
That the day will soon be mine  
I'll take his crown  
And the stars in the sky that hold the wishes of my eye  
Will carry us away, away, away  
When our worlds collide
